

Initial page from the Introduction-PowerPoint at the beginning of the seminar

We had to cancel the seminar initially planned for Tamale because the organizers demanded a very high fee from us to provide meals for the participants and cover their travel expenses. So, we moved the proposed seminar to Obuasi. The seminars of Ghatronic Foundation, together with TCC of KNUST took place in Obuasi Municipal Assembly (headquarter of government business in the municipal headed by the Municipal Chief Executive, appointed by the president). The TCC at University KNUST is designated as a UNESCO Category 2 Centre of Excellence. We are proud to be in partnership on training artisans in automotive diagnostic systems.

Starting Time: 25th February 2026

Finishing time: 13th March 2026

Three of the Ghatronic trainers trained 145 people, 82 mechanics and 63 electricians, of which 13 of them were ladies.

Every day the training started at 8 am and ended at 12 am.

For the syllabus, we used our PowerPoint presentations we have been using at all other trainings

1. Vehicle diagnosis
2. basic electricals 1
3. Engine management 1

The theoretical sessions were accompanied by many practicals, see below pictures.

All seminar participants received a training certificate from Ghatronic Foundation. The total cost of the seminars in Obuasi was 48000 GHS of which KNUST paid 18000 GHS. The amount of 30000 GHS was borne by Ghatronic. The seminars in Tamale would have cost us about twice as much.
